

Reservation and Recreation Log

How to Use The R&R Logs

The Reservation and Recreation Log is a great tool for keeping track of your camping reservations and things to do in the area, whether ideas or actual reservations.

Print one sheet per reservation, 2 sided, so it keeps everything in one location for you!

There is a place on the reservations sheet to include useful information about your reservation, payments, locations, special instructions, and amenities.

The recreation page lets you keep your ideas and recommendations handy, whether you have booked or are just gathering ideas.

These sheets are great for infrequent campers that only reserve for a season or a few trips at a time.

We also have Our Travel Planner available to order from Amazon that includes these pages with monthly calendars and lots of other great tools, if you find you camp more often, or want to keep everything in one book. Our website always has the link to the most current book.

Find it on our website at <https://barnesonmove.com/planner/>

Happy Camping!
